ACCESS B5

The perfect combination of design and affordable accessibility

Compact and elegant design to reduce barriers and improve integration in the pool.

Smooth and progressive movement, always toward the water, to promote safety and complete user autonomy.

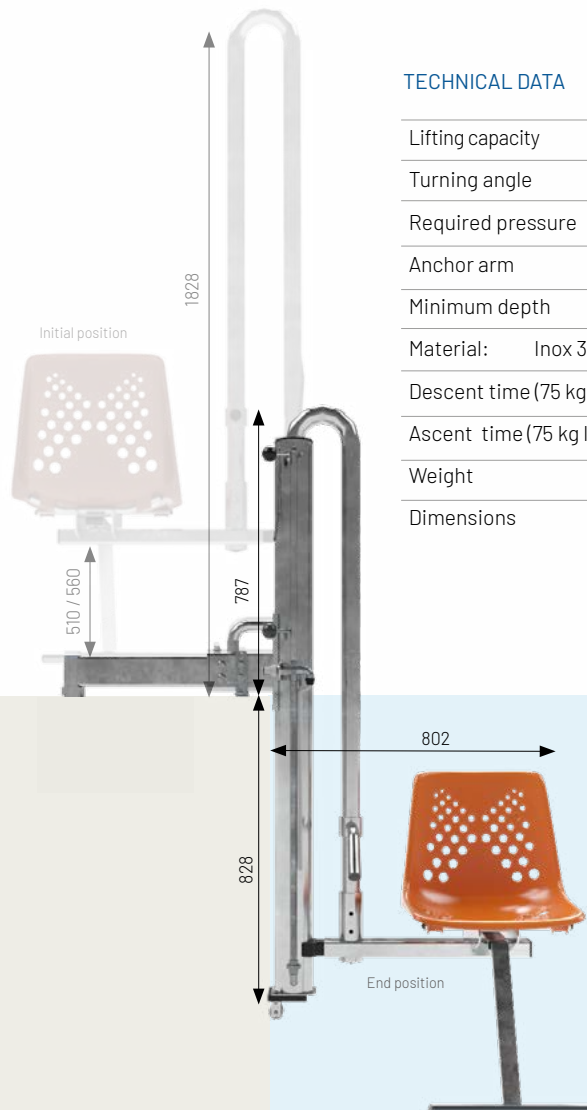

Simple installation that can be carried out by any maintenance technician.

Minimal maintenance, requiring only external cleaning.

Manufactured in Spain, entirely in our workshop.

ACCESSB5

Designed to improve usability and autonomy. It performs a wide rotation to fully submerge the chair in the water, avoiding any effort for the user. The comfortable and safe movement is activated through a double operating lever, allowing full user autonomy both inside and outside the pool.

High lifting capacity up to 150 kg, certified and approved.

Portable and lightweight, making it easy to share between pools or store when not in use.

Easy installation. No work required in the pool basin; with a single built-in anchor, the lift can be positioned and moved with great ease.

Optional accessories available to enhance user safety or adaptability.

Adaptable to most pools thanks to its anchoring arm options.

Our technicians will recommend the best option according to each pool or specific need.

ANCHOR ARMS OPTIONS

S	250 / 300 mm
M	500 / 550 mm
L	750 / 800 mm
XL	Customisable max. 1200 mm
