ACCESSB5

Designed for maximum usability and independence. It performs a wide rotation to fully submerge the chair in the water, avoiding effort for the user. Smooth, comfortable, and safe movement, activated by a dual control lever for entering and exiting the pool.

Lifting capacity up to 150 kg, certified and approved.

Installation flexibility according to usage and space requirements, with two installation options: choice of two types of anchoring arms and several available lengths from 250 to 1200 mm.

Designed for all types of pools: public pools, hotels, residential communities, and private homes.

TECHNICAL FEATURES

Maximum capacity:	150 Kg
Rotation angle:	180°
Anchoring arm:	250 > 1200 mm
Material:	Stainless steel 316L and polypropylene
Lifting/lowering time (75 kg):	35 / 16 s

OPTIONAL ACCESSORIES

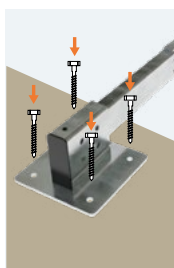

Footrest

2-point safety belt

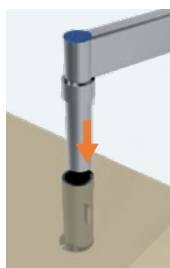

[See technical data sheet](#)

INSTALLATION OPTIONS

FIXED INSTALLATION

Anchored to the ground using four bolts at the base of the anchoring arm, ensuring permanence and stability of the lift.

PORTABLE INSTALLATION

Using a recessed floor socket into which the lift's anchoring arm is inserted. Allows the lift to be easily installed and removed, and shared between multiple pools.
